**SB 936** - **WE SUPPORT THIS BILL**, This act modifies the state emissions law to allow motorists to operate their vehicle for 30 days beyond the vehicle's registration expiration without a current state registration license for the purposes of resetting their vehicle's readiness monitors and passing the on-board diagnostic (OBD) retest. Motorists must keep a copy of the most recent failing OBD test results in their vehicle to present to law enforcement. Motorists would still be liable for late registration penalties.
